

Conflict Mineral Policy

June 03, 2019

Dear customer:

Micropen Technologies, Inc. supports our industry in opposing unethical practices and human rights abuses surrounding the mining of metals in the conflict regions of the Democratic Republic of the Congo. While trying to manage the complexity of our supply chain, we work closely with our suppliers to verify to the extent possible that the materials used in the manufacturing of our products are sourced from conflict free smelters and refiners. Based on these efforts, we are committed to remain in compliance with the requirements of the Dodd-Frank act regarding Conflict Materials.

Sincerely,

A handwritten signature in black ink that reads "Vivek Sharma".
