Advantages

- Highest voltage ratings available in a surface mount resistor (up to 20,000 Volts).
- Replace leaded thru-hole resistors with surface mount resistors saving assembly and board space costs.
- Replace multiple resistor arrays with a single resistor.

Our patented Micopen® precision printing technology provides a superior surface mount resistor with the highest voltage ratings available in the industry. These ultra high voltage resistors also meet Ohmcraft’s superior electrical

- Voltage Ratings to 20,000 Volts
- Resistance Values to 50 Gigoohms
- Ultra High Stability
- Very Low Noise
- Tolerances to 1%
- TCR to 100 ppm/°C

Electrical Specifications—Minimum Ohmic Value for Specified Voltage Rating

Note 1: For these values and package size, refer to our standard HVC series.

Due to the high voltage ratings, these resistors must be potted upon assembly.

For other configurations or requirements, consult factory.

Operating Temperature
-55°C to 150°C

TCR
Measured from 25°C to 75°C

Resistance Value
Measured at 1000 VDC for custom test voltages consult factory

Tape and Reel Specifications
Parts are packaged in accordance with EIA-481 tape and reel specifications.
